ENVIRONMENT AND NATURAL RESOURCES

Presenter: Sandy Farber, Extension Agent
Urban Gardening for the Consumer:
sfarber@udc.edu

Overview:

Workshop attendees will learn basic principles and practices that will enhance their home and community gardening.

Objectives: To teach District residents the following:

1. The importance of correct cultural techniques, including plant selection, site selection and soil preparation
2. Potential problems and what to look for when buying plants and supplies
3. How to add value to your home by proper landscaping techniques i.e. mulching, pruning, integrated pest management, composting, landscape design, annuals, perennials and fall bulbs etc.

Potential Outcome(s):

1. District residents will have increased success in gardening
2. Improved appearance of home landscapes and city streets
3. District residents will increase the potential value of their homes by 15%.
